The Members of the Governing Body present their Annual Report for the year ended 31 July 2017 under the Charities Act 2011,

graduates can mix and interact. Three new JRFs were appointed in the year; and the College is enlivened and enriched by the presence of a strong JRF cohort.

In addition to its habitual Visiting Student schemes, an experimental scheme to receive Visiting Students from Tsinghua University, Beijing, was agreed, to commence in 2017/18.

The Choir, a fundamental part of the Foundation, has had a productive and busy year, both in terms of public performances and discography. New College School has also had a very successful year, attracting full numbers.

A substantial restoration of Cloisters roof was successfully accomplished, some seventy or more years since it was last restored. The refurbishment of the Morris Garages is now in progress, but the completion of the Music Practice Rooms is behind schedule, owing to unanticipated issues in the building process, which have now been resolved. The plans for the new Gradel Quadrangles, and the social/learning hub associated with them, are now complete. Following the endorsement of the Oxford Design Review Panel, they will be submitted for planning approval in November. They represent a major opportunity for the College to endeavour to house all its undergraduate students on campus.

The College approved a new Access Strategy, one component of which, the “Step Up” programme, has been successfully launched. This is aimed at increasing the number of applicants from challenged or minority backgrounds through in-depth and continuous association with selected schools. The intention is to learn from this experience, and e

NEW COLLEGE

Report of the Governing Body

The investment policy and strategy are set by the Governing Body as advised by the Endowment Committee, and performance is regularly monitored by the Endowment Committee. Appropriate benchmarks are set for the fund-managers and their performance measured against them. At year-end the College's long term investments, combining the securities and property investments, totalled £244m. The overall investment total return was 16.9% over the year.

The carrying value of the preserved permanent capital and the amount of any unapplied total return available for expenditure was taken as the open market values of these funds as at 1 August 2002 together with the original gift value of all subsequent endowment received.

Under the total return accounting basis it is the Governing Body's policy to extract as income 3.25% of the value of the relevant investments, smoothed by taking the year-end values for the current year (before in-year withdrawal) and for the previous four years. The Governing Body will keep the level of income withdrawn under review to balance the needs and interests of current and future beneficiaries of the College's activities.

Policy on ethical investment

The College has considered the issues involved in underpinning its investment policy with a specifically ethical stance. In light of its broad charitable objects, the conclusion is that it would be difficult to isolate any particular sector or company whose activities were specifically antithetical to those of the College without excluding many companies whose activities, taken in the round, are broadly positive for the College's charitable objectives. It is also concluded that any such policy on ethical investment would risk limiting the overall investment return to the College by excluding particular areas of investment but without necessarily advancing the College's charitable objectives. The Endowment Committee, however, continues to review the investment portfolios and will instruct the managers accordingly if they believe that, despite the broad policy set out above, any specific investment should be excluded on ethical grounds.

FUTURE PLANS

The College's plans are as agreed by the Governing Body on the advice of its various Committees and are focused on continuing to enable New College to provide high-quality education of undergraduates and graduates, whilst maintaining financial stability and even growth during varying economic conditions and in the context of changes in the government funding of higher education in England and Wales. Under the Development Director, we are intensifying our fund-raising effort, aiming to increase annual-giving and to achieve major donations so as both to enhance the permanent endowment and also provide funding for special capital projects (including additional residential accommodation). The Academic Strategy Committee will continue to ensure that there is a proper balance and representation of disciplines within College and will carefully consider the replacement of Fellows who retire or leave with the aim of maintaining the highest quality in all the subjects represented and possibly expanding into other fields not currently covered by the College. This is a holistic plan: endowing Tutorial Fellowships will release funds for long-term maintenance, undergraduate and graduate scholarships, and student financial aid so as to ensure needs-blind admission. Major donations will be sought for capital projects and to increase the permanent endowment, which will in turn enhance the student experience and enable the College to retain distinguished colleagues.

STATEMENT OF ACCOUNTING AND REPORTING RESPONSIBILITIES

The Governing Body is responsible for preparing the Report of the Governing Body and the Financial Statements in accordance with applicable law and regulations.

Charity law requires the Governing Body to prepare Financial Statements for each financial year. Under that law the Governing Body have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 102: The Financial Reporting Standard Applicable in the UK and Republic of Ireland (FRS 102).

Under charity la

NEW COLLEGE

on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities Act 2011 requires us to report to you if, in our opinion:

- sufficient accounting records have not been kept;
- the financial statements are not in agreement with the accounting records and returns; or

7. Tangible fixed assets

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Expenditure on the acquisition, construction or enhancement of land and on the acquisition, construction and enhancement of buildings

at their fair value at each reporting date without deduction of the estimated future selling costs. Fair value is based on the most recent valuations available from their respective fund managers.

Other unquoted investments are valued using primary valuation techniques such as earnings multiples, recent transactions and net assets where reliable estimates can be made – otherwise at cost less any impairment.

Changes in fair value and gains and losses arising on the disposal of investments are credited or charged to the income or expenditure section of the SOFA as 'gains or losses on investments' and are allocated to the Fund holding or disposing of the relevant investment.

11. Other financial instruments

a. Derivatives

Derivative financial instruments are initially measured at fair value on the date the contract is entered into and are subsequently measured at fair value. Changes in fair value are credited or charged to the income or expenditure section of the SOFA. Hedge accounting is not currently applied to derivatives.

b. Cash and cash equivalents

Cash and cash equivalents include cash at banks and in hand and short term deposits with a maturity date of three months or less.

c. Debtors and creditors

Debtors and creditors receivable or payable within one year of the reporting date are carried at their at transaction price. Debtors and creditors that are receivable or payable in more than one year and not subject to a market rate of interest are measured at the present value of the expected future receipts or payment discounted at a market rate of interest.

12. Stocks

Stocks are valued at the lower of cost and net realisable value, cost being the purchase price on a first in, first out basis.

13. Foreign currencies

Transactions denominated in foreign currencies during the year are translated into pounds sterling using the spot exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates applying at the reporting date.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the exchange rates at the reporting date are recognised in the income and expenditure section of the SOFA.

14. Total Return investment accounting

The College statutes authorise the College to adopt a 'total return' basis for the investment of its

15. Fund accounting

The total funds of the College are allocated to unrestricted, restricted or endowment funds based on the terms set by the donors or set by the terms of an appeal. Endowment funds are further sub-divided into permanent and expendable.

Unrestricted funds can be used in furtherance of the objects of the College at the discretion of the Governing Body. The Governing Body may decide that part of the unrestricted funds shall be used in future for a specific purpose and this will be accounted for by transfers to appropriate designated funds.

Restricted funds comprise gifts, legacies and grants where the donors have specified that the funds are to be used for particular purposes of the College. They consist of either gifts where the donor has specified that both the capital and any income arising must be used for the purposes given or the income on gifts where the donor has required that the capital be maintained and the income used for specific purposes within the College's objects.

Permanent endowment funds arise where donors specify that the funds should be retained as capital for the permanent benefit of the College.

21 PENSION SCHEMES (continued)

Oxford Staff Pension Scheme

The OSPS employer contribution rate required for future service benefits in the defined benefit section alone is 17.3% of total pensionable salaries from 1 April 2018. The employer contribution rate was 23% from 1 August 2016 to 31 July 2017. It

Teachers' Pension Scheme

A copy of the valuation report and other details on the scheme are available on the Teachers' pensions website at www.teacherspensions.co.uk.

Sensitivity of actuarial valuation assumptions

Assumption	**USS change in assumption**	**Impact on USS liabilities**
Initial discount rate	increase / reduce by 0.25%	decrease / increase by £0.8bn
Discount rate in 20 years' time	increase / reduce by 0.25%	decrease / increase by £1.1bn
RPI inflation	increase / reduce by 0.1%	increase/ decrease by £0.8bn
Rate of mortality	more prudent assumption	increase by £0.5bn

Assumption	**OSPS change in assumption**	**Impact on OSPS technical provisions** *(from 80% funded at 31/03/2016)*
Valuation rate of interest	decrease by 1.0%	68%
Rate of pension increases	increase by 1.0%	69%
Life expectancy	more prudent assumption *(life expectancy increases by 3 years)*	72%

Deficit recovery plans

	USS	**OSPS**
Finish Date for Deficit Recovery Plan	31/03/31	30/06/27
Average staff number increase	0.00%	0.00%
Average staff salary increase	2.00%	2.00%
Average discount rate over period	1.90%	1.55%
Effect of 0.5% change in discount rate:		
+ 0.5%	(£39k)	(£21k)
- 0.5%	£41k	£22k
Effect of 1% change per year in staff growth:		
+ 1%	£84k	£96k
- 1%	(£77k)	(£91k)

A provision of £1,793k has been made at 31 July 2017 (2016: £1,815k) for the present value of the estimated future deficit funding element of the contributions payable under these agreements, using the assumptions shown.
